

PLANTERS IN SESSION

Annual Meeting of the
Association.

NEW OFFICERS ELECTED

Important Discussion of the Labor
Question at an Executive
Session.

At the request, since the Hawaiian
Planters' Association met in annual con-
ference yesterday morning. The meeting
was held in the hall of the Young Men's
Association. There was a good
attendance, although not as great as in
previous years, as a number of the mem-
bers were away from the Islands.

The meeting was opened by C. M.
Harris, who acted from the presidency.
He read an address in which he com-
mended the planters for the important matters
which they have been called upon
to bring to the attention of the
association. He also called attention
to the fact that the association is the
only one of its kind in the world.

The report of Dr. Walter Maxwell for
the preceding year of the association's
work was presented and read. He treated
the subject of experiments carefully and
critically, and spoke of certain experi-
ments which had been made with favor-
able results. These were of certain
classes of cane grown in soil treated with
cane trash. Dr. Maxwell stated to the
conclusion of the reading of his report
that the association should exercise the
greatest caution in introducing new cane
varieties into the Territory in order to
avoid as far as possible bringing in more
pests to cope with. The Experiment Sta-
tion should be the medium through which
all varieties should be subjected to a criti-
cal examination before being allowed en-
try here.

A general discussion was brought about
by the reading of a report on the crystal-
lization of sugar while in motion, written by
Manager Ahrens of Oahu plantation. The
report treated of the experiments which
have been conducted on the plantation.
A resolution was adopted that the di-
rector of the Experiment Station formu-
late a system of standards in methods of
conducting practical cane development at
the plantations, by which each plantation
should carry on such work as much alike
as possible in order that a more general
comparison of details could be made.

An executive session was held yesterday
afternoon at which the question of labor
was fully discussed.

CAME NEAR DYING.
"For three days and nights I suffered
as my untold from an attack of cholera
morbus brought on by eating cucum-
bers," says M. E. Lowther, clerk of the
district court, Centerville, Iowa. "I
thought I should surely die, and tried a
dozen different medicines, but all to no
purpose. I sent for a bottle of Cham-
berlain's Colic, Cholera and Diarrhoea
Remedy and three doses relieved me
entirely." This remedy is for sale by
Penson, Smith & Co., Ltd., wholesale
agents.

The skeleton of a person supposed to
be a Hawaiian, was found in the
Young block excavation. A belt buckle
with the monogram of Kamehameha
III, together with a few boar's teeth

districts and we are expecting the first
installment of such laborers shortly. Mes-
srs. S. T. Alexander, W. N. Armstrong
and R. Machfee have all given us their
assistance to this end.

"In July E. F. Bishop was commis-
ioned with full authority to make arrange-
ments both as to recruiting and transpor-
tation of about 1,500 agricultural laborers
from the United States, without restric-
tions or limitations as to terms of wages.
He has since resigned, and C. Wolters
has taken up the work, and will assist
George E. Baldwin, formerly Federal In-
spector of Immigration, in acting as our
agent in New York to engage laborers
from newly arrived immigrants, and we
hope this source of supply may be a suc-
cess.

"The question of best labor-saving
machines for the cutting, loading and plant-
ing of cane has been discussed and the
matter is now in the hands of a commit-
tee to prepare an advertisement offering
prizes and stating terms for machines of
the best types, the prizes to be awarded
by a committee of practical men."

The proposal to erect a laboratory in
connection with the Experiment Station
was also spoken of in Mr. Cooke's ad-
dress.

An election of officers was held, result-
ing as follows: F. A. Schaefer, presi-
dent; C. Bolte, vice president; H. A.
Isenberg, treasurer; Wm. Pfotenbauer,
secretary; J. B. Atherton, auditor; H. P.
Robertson, directors. The following trust-
ees were also elected: J. B. Atherton,
George H. Robertson, H. A. Isenberg, C.
Bolte, F. A. Schaefer, W. G. Irwin, Wil-
liam Pfotenbauer, M. P. Baldwin and
F. M. Swanzy.

FAST STOCK HERE ON THE HELENE

Local Sportsmen Receive Not-
able Additions to Their
Stables.

The Helene, which arrived yesterday
from San Francisco, brought with her a
quantity of live stock, including several
fast harness horses.

Gus Schuman received twenty-two
head, including three teams. One is a
handsome bay team by Dexter Prince and
Dexterwood, respectively. Among others
of his shipment may be mentioned:

Jennie Wren, 2:23½, by Collina out of
Tiffany.

Mamie O'Brien, by Nephwood, dam by
Atherton.

A bay gelding by Hawthorne, dam by
Campaign out of Electioneer.

A team of brown geldings by Albert W.
2:30; these horses are full brothers.

A black singlefoot named Dandy Mac,
imported from Kentucky.

By the Helene also came W. H. Erring-
ton and Dan Sullivan, who it will be re-
membered were down here for the sum-
mer racing. Afterwards they went to Hi-
lo and thence with "Bob" Burns and Ma-
ples and Everitt, to the Coast. They will
remain in the Islands for the winter rac-
ing.

Mr. Errington brought with him a lot
of good-looking stock, consisting of nine-
teen head, mostly driving horses, and six
head of mules, ranging from 1,100 to 1,250
pounds. Not the least interesting animal
in the consignment is Abbie, a brown
gelding by Friar Tuck, said to be a
fair runner.

Charlie Bellina has received per the
Helene, Wayboy, a pacer by Strathway,
2:20, dam by Oakland Boy; also ten head
of driving horses.

"Bob" Burns, the horse trainer who
fought two battles with Aleck Hanson in
Hilo during the summer, is expected down
here in a week or so. He will bring with
him a number of runners.

Everitt, Jack Wilson's horse, recently
shipped from Hilo to San Francisco, has
proved a failure down there. He started
a number of times, but could not even get
inside the money. Everitt's best mile up
there was four seconds slower than his
winning time here.

Maples and Ahlmanu are said to be
doing well at Oakland, where they are
being trained. Both are being reserved
for the big fall meetings. Ahlmanu has
filled out wonderfully and is considered
liable to cause a sensation when let go.

Jack Wilson of Hilo is racing a horse or
two around the California fair circuit.
Burns is handling his stable. He will
bring quite a string of flyers back with
him.

A. F. Rooker, the San Francisco horse-
man, well known locally, is recovering
from the result of a bad sprain, caused
by slipping on the steps of the Palace
Hotel in San Francisco. He was quite
severely injured.

The members of the Honolulu Driving
Association will hold their regular monthly
meeting next Friday evening at 7:30
o'clock in the Hawaiian Hotel. A full at-
tendance of members is requested, as busi-
ness of the utmost importance is sched-
uled.

A meeting under the auspices of the Ho-
nolulu Driving Association will be held
next Saturday afternoon, provided the
Kapiolani Park track is in good shape.
Three or four races will be brought off.
Should the weather be unpropitious, the
meet will take place a week later.

J. P. Altgeld was greeted with en-
thusiasm by Yale students.

Interesting News

Owing to large shipments due here by next steamer we are com-
pelled to make room in all departments; therefore, we are offering
for the coming week great attractions.

SPECIAL PRICES—All our Crash suit-
able for dress skirts, on sale at 12½c
and 15c; regular 20c values.

COVERT CLOTHS, 36-inch, in all
shades; heavy quality; on sale at
16½c.

ONE CASE, 50 pieces, fancy LAWNS,
desirable patterns, fast colors; regu-
lar 10c values—

5 CENTS NEXT WEEK.

WASH MATERIALS, 20c, 15½c, 15c
values, next week, your choice at
10c per yard.
